What is claimed is:

15

- 1. A printing device comprising:
- a printing job receiving unit for receiving a printing job;
- 5 a command analyzing unit for analyzing a command included in said printing job;
 - a default setup modifying unit for modifying a default setup based on a default setup modifying command when said command is said default setup modifying command; and
- 10 a printing unit for printing data to be printed included in said printing job.
 - 2. A printing device claimed in claim 1, wherein said printing unit prints said data in accordance with the default setup modified by said default setup modifying unit.
 - 3. A printing device claimed in claim 1, wherein said printing unit prints the contents of the default setup modified by said default setup modifying unit.
 - 4. A printing job transmission device comprising:
- a default setup inputting unit for inputting a default setup for a printing device;

a printing job preparation unit for preparing a printing job including a default setup modifying command for modifying the default setup of said printing device to a default setup

entered by said default setup input unit; and

a printing job transmission unit for transmitting said printing job to said printing device.

5. A printing system comprising a printing device and a printing job transmission device, which are connected to be able to communicate with each other; wherein,

said printing job transmission device comprising:

a default setup inputting unit for inputting a default setup for said printing device;

a printing job preparation unit for preparing a printing job including a default setup modifying command for modifying the default setup of said printing device to a default setup entered by said default setup input unit; and

a printing job transmission unit for transmitting said printing job to said printing device; and

said printing device comprising:

15

a printing job receiving unit for receiving a printing job;

a command analyzing unit for analyzing a command included 20 in said printing job;

a default setup modifying unit for modifying a default setup based on a default setup modifying command when said command is said default setup modifying command; and

a printing unit for printing data to be printed included

in said printing job.

5

- 6. A printing system claimed in claim 5, wherein said printing unit of said printing device prints said data in accordance with the default setup modified by said default setup modifying unit.
 - 7. A printing system claimed in claim 5, wherein said printing unit of said printing device prints the contents of the default setup modified by said default setup modifying unit.
- 8. A printing method comprising:
 - a printing job receiving step of receiving a printing job;
 - a command analyzing step of analyzing a command included in said printing job;
- a default setup modifying step of modifying a default setup based on a default setup modifying command when said command is said default setup modifying command; and
 - a printing step of printing data to be printed included in said printing job.
- 9. A printing method claimed in claim 8, wherein said printing step prints said data in accordance with the default setup modified by said default setup modifying step.
 - 10. A printing method claimed in claim 8, wherein

said printing step prints the contents of the default setup modified by said default setup modifying step.

- 11. A printing job transmission method comprising:
- a default setup inputting step of inputting a default setup for a printing device;
 - a printing job preparation step of preparing a printing job including a default setup modifying command for modifying the default setup of said printing device to a default setup entered by said default setup input step; and
- a printing job transmission step of transmitting said printing job to said printing device.
 - 12. A printing program for causing a printing device to execute:
- a printing job receiving step of receiving a printing 15 job;
 - a command analyzing step of analyzing a command included in said printing job;
 - a default setup modifying step of modifying a default setup based on a default setup modifying command when said command is said default setup modifying command; and

20

- a printing step of printing data to be printed included in said printing job.
 - 13. A printing program claimed in claim 12, wherein said printing step prints said data in accordance with

the default setup modified by said default setup modifying step.

- 14. A printing program claimed in claim 12, wherein said printing step prints the contents of the default5 setup modified by said default setup modifying step.
 - 15. A computer-readable medium storing the printing program claimed in claim 12.
 - 16. A printing job transmission program for causing a printing job transmission device to execute:
- a default setup inputting step of inputting a default setup for a printing device;
 - a printing job preparation step of preparing a printing job including a default setup modifying command for modifying the default setup of said printing device to a default setup entered by said default setup input step; and
 - a printing job transmission step of transmitting said printing job to said printing device.
 - 17. A computer-readable medium storing the printing job transmission program claimed in claim 16.
